From Our Correspondent
MORIGAON, March 12 - The health department of Morigaon district has launched the boat clinic service under National Rural Health Mission (NRHM) in the district since February 22. In Morigaon district, there are at least 50 chars covering a population of 60,000 people. Most of these people are unaware and deprived of basic health care facilities. These areas are lag-

ging far behind with respect to road communication. The introduction of the boat clinic has assured a regular presence of proper health care facilities at the doorsteps of population of Morigaon district.

The clinic would house a Doctor, ANMs in required numbers, pharmacists, laboratory technicians and other paramedical staff. There would be treatment beds, delivery ta-

bles, ultrasound equipment, x-ray machine inside the boat clinic.

The people of Tengatoli and Bongaguri under Lahorighat revenue circle of Morigaon district would be able to get better medical facilities through the boat clinic. This would be followed by subsequent accessible health care services to all the remaining char areas of the entire Morigaon district.
