"I will travel to state capitals twice a year to review National Rural Health Mission (NRHM). I will try to get cabinet approval for an urban health mission and target to get AIIMS-style hospitals running in two to three years."

Key challenges

- Plug gaps in NRHM, which has done well in some places but falls short of expectations in many areas
- Expedite plan to set up six AIIMS-style hospitals in Rishikesh, Bhopal, Jodhpur, Bhubaneswar, Raipur and Patna and upgrade 13 existing government hospitals
